

DYNA Activation / License Server

For Standalone Version

1 - For activation, provide the product number below and obtain the activation number.

D69FAA-3D37FF-7E7B8A-DAD926-520000-6C0360-A003C0-6D63A2-67019C-BA2682-8128D1-916B9E-991DE2-09027F-443AB4

2 - Enter the activation number here:

For Network Version

Provide the information of the license server...

Server: CAPPLIC004-NEW

Port: 12345

Connect

☒ Connect Automatically

Remove the Activation Number

OK

Cancel

1. RUN DYNA61R07.exe
2. Activation number:
2522B0-0200A8-B502D4-940000-C1C03F-BAB718-8D8925-83309D-080308-DF4234-0C0600-E4E154-787620
3. Server: CAPPLIC004
4. Port: 12345
5. Connect

Any problem with Dyna6.1 connection to server, please contact either **Ancel Troskie**, **Cheryl Young** or **Holly Zhao** from IT. Ask them to check and reboot the server as required. Most of the time, rebooting the server will be the solution.
